AKHIL PADAMATI

SUMMARY

Aspiring Web Developer seeking opportunities in frontend and backend roles. With 3 years of experience as an Operations Analyst, I have developed strong skills in data management and analysis. Skilled in JavaScript, SQL, HTML, CSS, Bootstrap, Node Js and Python, I am exploring opportunities to contribute while continuously learning and growing in the field.

SKILLS

- Javascript
- React Js
- Node Js
- HTML, CSS, Bootstrap, Tailwind
- SQL
- Python

PROJECTS

- **To-Do List Application:** Developed a dynamic To-Do List application using *React*. The app allows users to add, edit, mark as complete, and delete tasks, leveraging React's state management and component-based architecture. Implemented features like dynamic rendering, form handling, and conditional styling to enhance user experience.

- **Portfolio Website:** Created a **responsive** portfolio website using **React** and **Tailwind CSS**. The site is built with **React components** and utilizes **React hooks** like useState for state management. It features multiple sections, showcasing my skills, projects, and professional experience. The project demonstrates proficiency in building modern, dynamic, and responsive web applications with a focus on user experience.

EXPERIENCE

OPERATIONS ANALYST

09/2020 – 09/2023

ENTAIN, Hyderabad, Telangana

- Analyzed and organized data from APIs using Microsoft Excel, leveraging PivotTables, functions, and Lookups for actionable insights.
- Managed API data uploads, updates, and downloads, ensuring data integrity and effective synchronization.
- Documented data processing procedures, SQL queries, and API interactions to facilitate knowledge sharing and onboarding.
